The instructor will review the features to consider when choosing a receiver and introduce you to some of the fun and practical applications of using a GPS unit in your outdoor activities. At the end of the session, you will get hands-on experience with a GPS. If you own a GPS unit, please bring it to the class

(X) BACKPACKING/HIKING 101

Despite what the glossy magazine pictures will show you, it isn't required that you spend two months of your annual salary for backpacking gear. This class will help prepare you for a comfortable and enjoyable overnight hike into the wilderness. Together, we will talk about the ten essentials, safety considerations, Leave No Trace principles, as well as gear and equipment selection.

(Y) BACKPACKING/HIKING 102

In the previous class you learned what is necessary to have a tranquil hike into the backcountry. Now, let's practice the skills of packing our pack, selecting a campsite and throwing a bear bag. We will be out in the field for this session. Bring a day pack, two liters of water, a hat to shield you from the sun's rays and wear comfortable shoes.

(Z) BASIC LAND NAVIGATION

This course includes classroom and field exercises in map and compass reading. Students will learn to accurately read a US Geological Survey (USGS) map, and how to use them for hiking, hunting, fishing and backpacking trips into wilderness and backcountry areas. Students also learn how to use a hand-held compass and to determine their location and course direction on a USGS map. Practical use of these tools to test your skills will follow class instruction. This is a must for active outdoor enthusiasts who like to get off the trail.

(AA) GEOCACHING (GPS)

It is a treasure hunt! Join the worldwide fun of geocaching, a great way to get your tech savvy family outside. This class focuses on the Global Positioning System, how it works and how it can help in the outdoors. We will begin with a review of basic GPS skills then you will use your GPS to find "treasures" near the camp. Let us know if you need a loaner GPS unit.

(CC) HORSEMANSHIP

This introductory class on horses teaches the basics of horse behavior and care. Participants will become familiar with the terms currying, tacking up and untacking. Attendees will participate in an approximately hour-long ride into the forest on the horse they saddle themselves. Participants will also take care of their mount after the ride, which may include untacking, brushing or applying liniment to the horse, as well as watering and bedding them down for the night. Participants are required to wear a certified helmet (provided) and appropriate riding boots (smooth sole with a heel - 3/4 - 1.5 inches is usually appropriate) ***THIS CLASS HAS AN ADDED NON-REFUNDABLE COST OF \$50.00.***

(DD) I'M LOST NOW WHAT?

Hands-on class covering basic mountain and desert survival: shelter, water and food. The class will create a mock survival camp. This class covers planning, protection and prevention skills for your next venture into the wild. Learn practical solutions for overnight survival in the wilderness. You will learn how to avoid emergencies in the out-of-doors, but still be prepared for them if they do occur. You will receive a booklet outlining basic survival rules and skills. Learn how to equip the ultimate field survival fanny pack and how to use it.

(EE) FIRST AID IN THE BACKCOUNTRY

In the backcountry, what you do in the first five minutes matters. A lot. In fact, it could be the difference between life and death. This class focuses on what to do when mishap happens and the Golden Hour of care rests solely on your shoulders. If time permits, we will additionally talk about heat illness, foot care and management of sprains/strains/fractures – all common backcountry injuries.

(LL) SELF DEFENSE: This class will provide you with the basics of Awareness, Avoidance, Verbal Strategies, and some physical techniques. Gym shoes or field boots are best to wear. Susan Baldwin from the Personal Protection Institute will be your instructor. Among many other accomplishments, she is a Retired Federal Agent, Combat Veteran and Reiki Master.

(NN) THE INCREDIBLE VERSITILE PRICKLY PEAR

Opuntia Tuna or Prickly Pear is a Sonoran desert native plant that has fed and helped clothe the Sonoran desert people for more than a thousand years. It is also used as a juice, in jellies as well as candies. In this class you will learn how to pick the fruit of the prickly pear cactus and how to turn it into juice.

(QQ) ARIZONA WILD FOODS

Tap into your inner locavore and learn about ancient and new wild foods in Arizona that are relevant to today's health-conscious and slow food movements. The session will cover the basics of identification, seasons and settings, safe and ethical collection, historic and current uses, methods of preparation, and valuable references to get you started. The material will touch on wild foods throughout the state, whether you're munching on mountaintops, grazing in grasslands, dining on deserts, or noshing around the neighborhood. Instruction will be held in both the classroom and field.

(RR) RATTLEMAKING

Learn about using rattles in meditation and self-healing ceremonies, and make one to take home. In this workshop, we will make rattles with wet rawhide; cutting, punching, and stitching. All materials provided, including ideas for decorating your rattle.

(SS) NAME THAT ROCK

What makes up Arizona's geology? Why, rocks of course. There are also minerals like copper and gold, sometimes in the rocks. We have mountains made by volcanoes and earthquakes. And dirt (lots of dirt!). Join geologist Rich Leveille for an insight to our states diverse geology.

PHOTOGRAPHY:

(FF) OUTDOORS PHOTOGRAPHY Start Getting Composed: Tell the story Elevate yourself from simply “taking pretty pictures” to learning the secrets of designing artwork that engages, tells a story, and moves your audience. Did you know you can literally control which parts of your image the audience will see first, second, and last? You can control the mood, energy, and even how long someone gazes upon your work. Learn how to strategically use elements of composition and light to take your artistry to the next level. Class will be part classroom/part field with guidance.

Gear: Any camera is welcome. Even your cell phone.

Level: Beginner to intermediate

WILDLIFE:

(GG) ARIZONA'S VANISHING HABITAT

The biggest threat to our wildlife is habitat loss. It comes from subdivisions, fires and drought. This class will touch on the historic and varied life zones of Arizona and the fascinating animals that live here. There will be an emphasis on riparian and water and grasslands. Learn about the restoration projects that have been done and how you and your family can be part of the next one.

(HH) BIRD WATCHING

There are over 800 species of birds to see and marvel at in the United States. Come learn how to use binoculars and field guides, locate and identify birds, and see your surroundings through new eyes. You will learn how to use a bird's distinguishing characteristics, behavior, and habitat in order to identify a species and understand how it lives. Because half the class is hands-on, you will venture out to put some of your newfound knowledge to the test and start a lifetime of birding enjoyment. Please bring binoculars and bird book if you have them. Participants are encouraged to take the morning bird walk at 6:00 a.m. Sat. or Sun. before breakfast.

(II) TRICK, TRACK AND TRAIL Learn how to identify wildlife ‘sign’ such as tracks and ‘scats’ and what foods, plant and animal, are important to Arizona wildlife. Participants will be instructed on how to interpret or ‘read’ wildlife tracks and sign and learn the fundamentals of observing wild animals, including tips on getting closer to wildlife and use of camouflage techniques. Attendees have the opportunity to make their own camouflage shirt with the materials they talk about and gather as they hike through the woods.
